PROFESSIONAL SUMMARY

Detail-oriented AI and Web3 professional with three years of experience across the Web3 ecosystem, cryptocurrency and Forex trading, and emerging areas including AI and Decentralized Physical Infrastructure Networks (DePIN). Technical analyst with the ability to assess market structure, interpret price action, and identify potential market direction to support informed trading decisions and disciplined risk assessment. Skilled in AI prompt engineering, generative AI tools (including Gemini and Grok), content evaluation, on-chain research, and online community engagement. Combines analytical judgment, clear communication, and a science background (HND Biochemistry). Seeking opportunities in AI evaluation, Web3 research, crypto/Forex market analysis, data annotation, and related remote roles.

CORE SKILLS

AI & Content: AI Prompt Engineering (Gemini, Grok), Generative AI Tools, Content Evaluation & Ranking, Professional Copywriting, Response Quality Assessment, Text Refinement

Web3 & Markets: Web3 Ecosystem Research, Cryptocurrency & Forex Trading, Technical Analysis, Market Structure & Directional Analysis, On-chain Research, AI and DePIN Ecosystems, Risk Assessment

Analysis & Accuracy: Attention to Detail, Data Consistency, Structured Evaluation, Fact-checking, Analytical Judgment

Community & Communication: Community Moderation, Engagement Facilitation, Clear Written Communication, Stakeholder Coordination, Multilingual Content Support

Tools & Design: Microsoft Office (Word, Excel, PowerPoint), CorelDraw, GIMP, Photoshop, Canva, Image Editing, Generative AI Platforms, Telegram/X Community Tools

PROFESSIONAL EXPERIENCE

Web3, Cryptocurrency & Forex Trader / Technical Analyst | Independent | 2023 – Present

- Built three years of practical experience engaging with the Web3 ecosystem and cryptocurrency and Forex markets.
- Apply technical analysis to assess market structure, interpret price action, and identify potential market direction.
- Conduct market and on-chain research to support trading decisions, with attention to risk assessment and changing market conditions.
- Follow developments across AI-related Web3 projects and Decentralized Physical Infrastructure Networks (DePIN).

AI Content Creator, Prompt Engineer & Community Specialist | Independent / Remote | 2025 – Present

- Developed proficiency in generative AI tools (Gemini, Grok, and related platforms) for professional content creation, visual design, text optimization, and workflow efficiency.
- Applied structured prompt engineering to produce clear, high-quality outputs for marketing assets, educational content, professional messaging, and visual storytelling.
- Created and refined written content (threads, insights, outreach messages, testimonials) with emphasis on accuracy, clarity, tone, and engagement quality.
- Moderated online communities across Telegram and X, ensuring guideline adherence, resolving queries, and maintaining constructive engagement environments.
- Conducted technical and on-chain analysis with disciplined risk assessment—analytical skills also useful for evaluating AI model outputs and reasoning quality.

Board Member & Assistant Administrator | The Philharmonics Foundation, Abuja | 2022 – Present

- Appointed to the Board of Directors (CAC-certified) for demonstrated integrity; contribute to governance, strategic oversight, and organizational decision-making.
- Manage documentation, compliance records, meeting coordination, hiring support, and day-to-day administrative operations with high attention to accuracy and consistency.
- Support community development programs and stakeholder engagement, applying strong communication and coordination skills in mission-driven environments.

Office Manager | The Philharmonics Company Nigeria, Abuja | 2021 – 2022

- Managed daily office operations, administrative tasks, team coordination, and documentation in a fast-paced professional setting, ensuring timely and accurate execution.

Class Teacher & State General Secretary (NCCF Jigawa) | NYSC / Government Junior Secondary School | 2021

- Delivered classroom instruction and student mentorship; coordinated community service projects and relief distribution as State General Secretary, demonstrating leadership and reliable follow-through.
